April 29, 1981

Dr. David Stone
The Council for Tobacco Research - U.S.A., Inc.
110 East 59th Street
New York, New York 10022

Dear Dr. Stone:

This is being written to request the Council's support for the second Gordon Conference on "Proteases and Protease Inhibitors", to be held on June 28 - July 2, 1982 at Plymouth State College, New Hampshire.

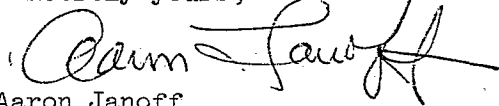

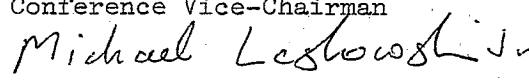

As you know, the first Gordon Conference on this topic, in 1980, was very well attended and generated considerable enthusiasm among the participants. We look forward to an equally successful conference in 1982.

We have enclosed, with this letter, several supplementary items for your information.

- (1) A supporting letter from the Conference Director, Dr. Alexander Cruikshank, who should be considered as the financial officer responsible for the distribution of any funds which The Council may approve.
- (2) A tentative program and list of session chairmen. This information may be subject to some modification, should exciting new developments in the protease field arise over the next year and require representation at the conference.
- (3) A copy of our proposed budget and a statement concerning its justification. If funds are approved by the Council, no part thereof will be used for the support of any conference participants from private industry.

If any further information is required, please do not hesitate to call or write either of the undersigned.

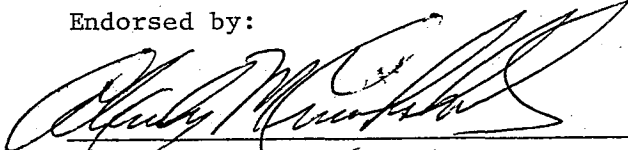

Sincerely yours,

Aaron Janoff
Conference Vice-Chairman

Michael Laskowski, Jr.*
Conference Chairman
